

FORE!
THE PLANET:
18 HOLES OF SERIOUS FUN!

OVERVIEW: Explore a tropical rainforest, navigate a polluted waterway, discover the challenges that migrating birds face and a “hole” lot more by playing miniature golf in “Fore! The Planet,” an exhibition developed and designed by the Academy of Natural Sciences about the natural world.

The overarching message is one of stewardship and conservation. The front nine holes illustrate the way nature works, and the back nine address human interaction with the environment. “Fore! The Planet” is a turnkey exhibition with supplemental marketing and educational material.

DEVELOPED BY THE ACADEMY OF NATURAL SCIENCES, PHILADELPHIA

EXHIBIT DESCRIPTION

"Fore! The Planet" is an eighteen-hole miniature golf course that teaches natural history through the course of play. It best exemplifies the concept of "serious fun." Students and families enjoy the whimsical, playful style of the game while testing their environmental knowledge in an earth-friendly way.

A kiosk accompanies the exhibit to house the clubs, balls, and scorecards. The kiosk can also be used for serving food and beverages during catered events.

SIZE:

18 hole course is 4,500 sq. ft.

9 hole course is 2,500 sq. ft.

PRICE:

\$65,000 for 18 holes,

or

\$40,000 for 9 holes

(plus inbound shipping)

3 month venue
